

Course Overview

About the Course :

Cyber crime is a burning phenomenon for the past one decade. Nowadays, digital platform interfaces and interferes with our everyday life to a great extent. Yet people are not aware of the laws that govern the cyber world. Sometimes even persons with legal background or legal working professionals find the intricacies of its practical aspect extremely obtrusive. Our certificate course aims to enlighten participants about the theoretical and practical aspects of cyber law and provide an in-depth understanding of cyber space, associated technological challenges facing society and the relevant jurisdictional environment today in India and the world. It is aimed to fill this gap in an essential part of the professional aspect of persons associated with legal community.

This brilliant course featuring Weekend Classes is a tremendous opportunity for working professionals as well as students of law and computer science.

The Course consists of four compulsory papers and a assignment/project work followed by a term-end exam at the successful completion of which the participants will be awarded the Certificate in Cyber Law by Centre for Cyber Studies, Mahatma Gandhi College of Law, (Institute of Legal Education & Research), Gwalior.

Objectives of the Course:

- Enhancement the understanding of cyber world and its Challenges.
- Provide in-depth knowledge of issues relating to cyber space and it's legal framework.
- Make learners familiar with Intellectual Property issues in Cyberspace and their solutions.
